El Paso Life Insurance Company For El Paso and the Southwest

Capital \$200,000.00

A Company For Everybody With No Proxies

Surplus \$100,000.00

This Is To Be YOUR Company

The El Paso Life is being organized because there is a crying need for a company nere of this kind; a company that will get the business and not merely to furnish a safe and profitable investment for a few rich men.

El Paso people alone pay out more for life insurance premiums than the taxation of El Paso city and county combined. There are some fifty-two foreign life insurance companies doing business in El Paso and vicinity. Why allow this money to go away from our own section? We can retain this money here, and get outside money coming our way too, if we but meet the invitation of Texas laws.

Some six thousand business men of Texas (including over five hundred bankers) have taken stock in other Texas companies and ALL of them have found it a very profitable and most safe investment. WHY NOT YOU?

But, there are ways of getting up a Life Insurance Company: SOME to guarantee better successes than do others.

A rich man's investment of \$10,000.00 or \$20,000.00 merely guarantees that he thinks the investment good for him, and that he is going to try to control your money, too.

It promises no insurance policies ("business") for the company. The general public furnishes the insurance, as is evidenced by the fact that the average policy for all the companies in the United States and Canada for 1909 was but \$1,922.00.

Then, interest the small man first (the big ones will follow, after you show that you can get business.) Interest the prospective customers. This, we have done and are doing more every day.

We have almost a full hundred stockholders who have taken small blocks of stock; men of different vocations, and many of them among the best business and professional

men of the Southwest. Each subscriber is a "Booster" for the company for the future, and will furnish us business themselves; help us get business from their neighbors, report to the company on new business, help to keep the business on the books and report on inspections.

We have no big subscribers for stock to control the company by "proxies," and do not want them. We are taking no "proxies," and have no "trustees" in our applications. As far as possible we desire to make this company co-operative and popular—not a close corporation for a

This is to be YOUR company, for the stockholders and policyholders, and the general good of El Paso and the

The organizers are not **NEW** at this business. The manager for the organizers is well known, and one of the best posted (by experience and study) insurance men in the Southwest.

We have forty of the best hustling and best posted experienced agents with us now, and will have a hundred schooled men within sixty days under contract.

We are now taking conditional applications for insurance and will have over half a million insurance to turn over to the officers selected by YOU, not by any "proxy committee," or "trustees."

We have a few more shares of the second series of stock to sell in SMALL BLOCKS ONLY. We expect to have at . least five hundred shareholders when the company is organized. If each of them average \$2,000.00 insurance, that assures us \$1,000,000.00 from the stockholders and they should help us get an equal amount from their neighbors, and this assures us, YOUR COMPANY, \$2,000,000.00 insurance from our vicinity.

Again, EVERYWHERE OUR AGENTS GO they must talk (advertise) El Paso and its surroundings; the NAME and location of the company makes this so; you will thus have one hundred (and more) agents constantly working paid advertisers for El Paso and vicinity.

Another company can have forty or fifty rich subscribers for stock, but they will not get the business; we will have ten "Boosters" to their one.

It is good to have successful business men at the head of your company, but YOU should be PERMITTED to select them, not some "trustees" or "proxy committee."

We have experienced insurance men and managers to GET THE BUSINESS, if you want to employ them.

We have an expert actuary to guide you, if you wish to employ him. WE KNOW ALL the details of what to do and how to do it, but we are going to leave it to YOUR approval and not to some one who knows NOTHING of the

We Want to Make This Company a GRAND Success

We want you to ALWAYS have a say as to how, and by whom, this shall be done, and would invite and solicit your directions at all times.

Let this be YOUR company and FOR THE GENER-AL GOOD OF ALL, and especially for you.

You will find this to be your best, safest and most profit paying investment. This, your BEST chance.

The Charter has already been procured for this company and has been duly assigned in trust for the stockholders and so held by the Guaranty Trust & Banking

ing such provision. The fight for the county seat promises to be hard. Notices of the primary election been published and candidates wired that all county officers would hold over and successors would not be elected until the organization of the sinte had beer completed.

Postmaster general Hitchcock has announced a list of 16 Arizonal postmasters who will receive salary increases on July I. Both Clifton and Metcaif are included. Postmaster W. F. Welss, of Clifton, goes from \$2906 to \$2100, while Metcalf is increased from \$1100 to \$1200.

Both the postoffice and the Shannon Copper company store have added two new stars to the flar, that fly over their buildings.

Metcalf is suffering from a long bill as passed does not provide for the election of Greenlee county officers in the fall. The people of this section day. The Arizona Copper company is

before the next general election. Raiph was close, 56 votes being in favor of Cameron, delegate to congress, made local option and 55 against.

Afraid of Ghosts

Many people are afraid of ghosts. Few people are afraid of germs. Yet the ghost is a fancy and the germ is a fact. If the germ could be magnified to a size equal to its terrors it would appear more terrible than any fire-breathing dragon. Germs can't be avoided. They are in the air we breathe, the water we drink.

The germ can only prosper when the condition of the system gives it free scope to establish it-self and develop. When there is a deficiency of vital force, languor, restlessness, a sallow check, a hollow eye, when the appetite is poor and the

sleep is broken, it is time to guard against the germ. You can fortify the body against all germs by the use of Dr. Pierce's Golden Medical Discovery. It increases the vital power, cleanses the system of clogging impurities, enriches the blood, puts the stomsch and organs of digestion and nutrition in working condition, so that the term finds no weak or tainted spot in which to breed. "Golden Medical Discovery" contains no alcohol, whisky or habit-forming drugs. All its ingredients printed on its outside wrapper. It is not a secret nostrum but a medicine of known composition and with a record of 40 years of cures. Accept no substitute-there is nothing "just as good." Ask your neighbors.
